### **Starting YuleLog and Importing Backup File**

1. Go to your Documents folder. Double Click on the YuleLog 2016 (Hallmark) folder. Double click on the icon titled YuleLog 2016 (Hallmark). The icon is a purple ornament:

2. You can also start the program by clicking the YuleLog 2016 (Hallmark) shortcut on the desktop if you chose to create one.
3. You will be presented with a form to fill out. This name and address form should be filled out with the information you want to appear on any reports you generate. After completing this form, click on the continue button to get to the opening screen.
4. The first time you run YuleLog, you will see a screen asking if this is a new installation or if you are updating. Click on the button labeled UPDATING FROM OLDER VERSION
5. FOLLOW THE ON-SCREEN INSTRUCTIONS. You will be prompted to **drag the backup.fmp12 file you saved earlier to a container field in the YuleLog 2016 program**. All you have to do is drag and drop your file to this field.
6. Click the Import Backup File button (make sure your backup.fmp12 file is in the container field!). Your backup file will be imported and you can resume managing your collection!
